LAWN SEED FOR EVERY PURPOSE

Make your home grounds beautiful. We blend our own lawn seed mixtures.

For the best lawns we recommend our Evergreen Lawn Seed. It contains a well-balanced blend of various fine-bladed and deep-rooting varieties which will produce the best results under varied conditions as to soil and climate. Our "Evergreen Mixture" contains the right kind of grasses in correct proportions and will produce a thick sod of rich deep green throughout the entire growing season.

We use only the finest grades of re-cleaned seeds in this mixture. It contains no chaff and will give a green, smooth, velvety sod within a few weeks after sowing. It is the best value at any price.

Quantity required for new lawns, one pound to 300 square feet.

Price ½ lb. 25c; 1 lb. 45c. By Parcel Post prepaid, 50c per lb.

SPECIAL MESSAGE TO MY CUSTOMERS

THIS season, I am anticipating a decided increase in the demand for flower, vegetable and farm seeds. To facilitate the handling and dispatching of orders, in rendering the best and quickest service possible, I have moved my office and seed business to Portland, Maine.

Since the establishment of my business in 1894, I have supplied the finest seeds at the lowest prices, consistent with their quality. I sincerely trust that each and every one of my customers, old and new, will favor me with their orders and join me in the celebration of the Fortieth Anniversary of the founding of the Pine Tree State Seed Co.

With best wishes for a bountiful garden, and a prosperous year.

Pine Tree State Seed Co., Portland, Maine.

WILLIAM R. KIMBALL, Manager.

AGENTS WANTED

To the members of the Grange, Home Demonstration Clubs, 4-H Clubs, Farm Bureaus and Agricultural and Home Economic Clubs you can make good money acting as our agent and taking orders for our seeds. Write for liberal terms to agents.

APPRECIATION

We appreciate the many kind words spoken for our seeds and we want to thank all our friends for the business given us last year. We know old customers will favor us with their order again. We hope for a trial order, no matter how small from each reader of this book.

TO MEMBERS OF THE GRANGE

You can save money by getting up a Seed Club in your Grange and sending the order to us.

We will send you some extra Catalogs and order blanks free. (Will also wrap each order separately and properly label them and will include a lot of free packets). Write for full information about the advantages secured on Grange orders. Address Grange Department.

FRATERNITY

Perhaps your neighbor would like to see our catalog. It would be a real service of helpfulness to pass this little book along, after you have finished with it, or if you will send us their address we will be glad to mail them a copy. There is a fraternity among garden lovers that makes us all appreciate suggestions and help—even though it may only be the passing along of a seed catalog to a friend.

Bags are Free and not weighed in with seed. Bags are expensive, but we make no charge as most firms do. This will mean a big saving to you. We will ship your grass and field seeds in heavy cotton bags, they to be returned at our expense.

IMPORTANT

If you want your seeds sent by Parcel Post it is necessary that the amount of money required to pay the postage be sent with the order so as not to cause any delay in filling your order.

We pay the postage on all seeds by the packet, ounce and quarter pound.

OUR GUARANTEE:

We guarantee the safe arrival of your seeds and we guarantee their quality to the full amount of the purchase price.

Little Miss Gray, 4 years old, holding a 15lb
Melon raised from our Thousand Dollar
Musk Melon seed.

Your Thousand Dollar Musk Melon is the best melon I ever saw, very meaty and the finest flavor. Grew some that weighed 14 lbs. and they were just as good as those that weighed 5 to 8 pounds.
Auburn, Me.

A GRAND MELON FOR NEW ENGLAND

Metcalf's "Thousand Dollar" Musk Melon

This melon has been grown by Mr. Metcalf of Cumberland County for over twenty years, of whom we secured a small supply of seed.

The following is his description:

"More than 20 years ago, a horticultural friend told me he had been talking with a man interested in gardening who told him of a superior variety of Musk Melon he was growing. Soon after he gave him a few of the seeds; these he divided with me. We both planted them the next season with good success. After they had ripened I called at the home of my friend one evening. When he brought in a nice looking melon and opened it, as he did so, its fine appearance and delightful odor caused him to exclaim: 'Ah! That's worth a thousand dollars.' Since then it has been known as the Thousand Dollar Melon. I have continued to plant this variety every year since, saving seeds from the best and first to ripen each year and know of no other variety any better or will ripen as early."

Mr. G. W. Higgins of Upper Gloucester, Maine, writes us as follows: "Last year I raised from your seed of the Thousand Dollar Musk Melon, one melon that weighed 20 pounds and 14 ounces. The flesh was as tender, fine grained and as sweet as the smaller ones weighing from 6 to 10 pounds each."

Five Islands, Maine.
Jan. 5, 1933.

Pine Tree State Seed Co.,
Bath, Maine.

Dear Sir:

Enclosed you will find a snapshot of my 4 year old daughter, Charlotte Jean Gray, holding a 15 pound melon raised from your Metcalf's Thousand Dollar Musk Melon seed which I planted in my vegetable garden in May, 1932 and which were gathered in September following. The next one in point of size weighed 12 pounds and 10 ounces and many weighing from 7 to 12 pounds each, all of which were of very delicious flavor. Never have I found melons which are such good yielders as are these.

Yours truly,

VERNON E. GRAY.

The Melons averaged six to ten pounds.

Price per packet, 15c. Maine Grown Seed.

Per ½ oz. 25c; oz. 45c.

If You Want the Best All-around Musk Melon, Plant Our Thousand Dollar Melon

The above cut was made from a photo taken at Dr. Twitchell's farm early in September. From a patch fifteen feet square he gathered 235 fine melons.

Golden Champion Musk Melon

The seed of this fine melon was grown for us by Dr. G. M. Twitchell at his Experimental Farm at Monmouth, Maine. The following is his description: The fruits are nearly round in shape, slightly ribbed, well netted, weighing from three to eight pounds each. The yield is heavy, meat very thick, shell exceedingly thin, very juicy and of a delicious and pronounced flavor, heavy cropper, short crop. Price per packet 20c. (Packets only)

LETTUCE—NEW YORK OR WONDERFUL

Recommended for Summer heading. Produces immense heads, 15 to 18 inches across and as solid as a cabbage. The outer leaves are rich dark green, while the heart blanches up beautifully and the quality is superb. Crisp, tender and delicious. Absolutely free from bitterness. This is the lettuce grown so largely in California and shipped East. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

Gathering Bobolink Beans for Home Canning

BOBOLINK POLE BEANS

BEST ON EARTH

If you want the very best, most tender and delicious "String Beans," raise the Bobolink. The best pole bean for northern planting, extremely early and very prolific, the vines bearing long, flat, meaty pods, entirely free from strings or fiber, a rich, light green color, very attractive, most excellent quality, the very best of all the pole beans. Plant enough to can—they are delicious. This splendid variety is soon bound to be the most popular Pole Bean grown. In many respects they surpass anything we know of. The pods retain their stringless and tender qualities until they are almost ripe. They are hardy, easily grown and enormously productive.

Larke packet, postpaid, 15c; $\frac{1}{2}$ pt. 20c; pt. 35c; qt. 65c.

OUR 10c PACKETS OF VEGETABLE SEEDS ARE EXTRA LARGE AND WELL FILLED

New Pole Bean—Sunset or Golden Podded Bobolink

New Pole Bean—Sunset

Or Golden Podded Bobolink

This fine new golden podded butter pole bean originated here in Maine. We have named it the Sunset. The seed was grown for us by Mr. Donald W. Ellis at Sunset Ridge Farm in Kennebec Co. The pods are of a bright golden yellow sunset color, very early, a few days earlier than our celebrated Bobolink Bean which it resembles in many ways except for the color of the pod.

Extremely tender and entirely stringless, of a rich melting buttery flavor possessed by no other bean, very productive and bears a large quantity of rich golden yellow pods until the vines are killed by frost, very meaty and growing in clusters and entirely stringless at all stages of growth. The dry beans are of very superior quality for baking.

We are the first to introduce this fine bean and after giving it a thorough trial last season we offer it with confidence to the public. If you want the very best, most tender and delicious "String Beans," raise the Sunset. Packet 15c; $\frac{1}{2}$ pt. 20c; pt. 35c; qt. 65c.

New Extra Early Pea

Carter's Early Eight Weeks

By far the earliest grown coming into picking condition before any of the other extra earlys. It bears large, well filled pods on dwarf, but vigorous vines, 15 to 18 inches high. Especially desirable for the home gardener who wants peas earlier than his neighbor.

Large Pkt. 10c; $\frac{1}{2}$ pt. 20c; pt. 30c; qt. 50c; pk. \$3.00

Bush Beans

Extra Early Six Weeks

Deservedly the outstanding flat podded variety. Very early, 50 days. The plants are vigorous and disease resistant. A heavy yielder, producing an abundance of pods about 7 inches long. These are long, straight, flat—oval and of attractive light green color, tender and of excellent quality. Large packet 10c; $\frac{1}{2}$ Pt. 20c; pt. 35c; qt. 60c.

Bush Beans—Brittle Wax

One of the best early varieties. The pods are round and long, often six to seven inches in length, a rich, golden yellow; stringless and brittle.

When ripe makes a good shell bean. Large packet 10c; $\frac{1}{2}$ pt. 20c; pt. 35c; qt. 60c.

WATER MELON YANKEE.—Best for New England. This new melon is a fine variety for the family and market, very early and prolific. The bright red flesh is cool crisp and sweet. Will mature anywhere in Yankee land. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 45c; lb. \$1.50.

Yankee Water Melon

OUR SEEDS ARE DEPENDABLE BECAUSE THEY ARE TESTED SEED

Wonder Golden Bantam

The Best of the Yellow Kinds of Sweet Corn

EXTRA EARLY GOLDEN SUNSHINE.—A new type of Golden Bantam, having the same fine quality but maturing its good sized ears about 10 days earlier, many stalks carrying two ears. The stalks grow about 4½ feet high, ears 12 rows of golden yellow sweet kernels of superb quality. Pkt. 10c; ½ pt. 20c; pt. 30c; qt. 50c.

SELECTED GOLDEN BANTAM CORN.—A supply of this seed, carefully selected for 15 years by Dr. G. M. Twitchell, Monmouth, Maine, has been secured. From three to six ears from one kernel has, in many cases, been the yield in recent years. In 1933 one kernel produced three full sized ears and three smaller, all well filled, 1376 kernels in all. Earliness, size of ears and productiveness have been the chief objectives in selection. Extra early and the sweetest of all the yellow types of Sweet Corn. Large packet, 15c; ½ pt., 20c; pt., 35c; qt., 60c.

WONDER GOLDEN BANTAM.—It is the very cream of the Yellow Sweet Corns today on the market. It is Golden Bantam larger, stronger grower and a much better yielder. The stalks grow from five to six feet high and have ears from eight to ten inches in length, filled with eight rows of rich golden colored kernels and just as early as the old style Golden Bantam but more vigorous and productive. It is a variety that will appeal to the critical Market and Home Gardener. Packet 15c; ½ pt. 20c; pt. 30c; qt. 50c.

Dr. G. W. Twitchell tested this corn at his experimental farm at Monmouth, Me., the past season and writes as follows:

"Your Wonder Bantam Corn is about a week later than Burpee's Golden Bantam, has a much larger ear, holds a longer season without hardening, is fully sweeter and very delicious."

EXTRA EARLY GOLDEN BANTAM.—An extra early type grown especially for us. Very hardy and will stand planting earlier than most varieties. Because of its extremely early character is especially adapted to our New England soil and climate, of vigorous growth and surpassing delicious flavor, maturing a week earlier than other varieties of the golden type. Large packet 10c; ½ pt. 20c; pt. 35c; qt. 60c.

GOLDEN GIANT.—The most desirable sweet corn yet introduced with its 12 to 16 rowed ears and deep golden kernels, very sweet and extremely early. The stocks are short and sturdy and producing two large ears. It excels all other early varieties in size, productiveness and quality.

Large packets 10c; ½ pt. 20c; pt. 30c; qt. 50c

BURPEE'S GOLDEN BANTAM.—One of the best extreme early varieties. Dwarf and sturdy in habit, growing about four feet high and bearing two or three good ears to each stalk. The ears five or six inches in length, having eight rows of broad yellow grains of a delicious flavor. Pkt. 10c; ½ pt. 15c; pt. 30c; qt. 50c.

GOLDEN NUGGETT.—Sweetest on earth. The ears of this new golden sweet corn are larger and more prolific than Golden Bantam, tender and unusually sweet. Ready for market only a few days behind the earliest. Pkt. 10c; ½ pt. 20c; pt. 30c; qt. 50c.

New Cucumber

Woodruff's Hybrid

This grand new cucumber grows a medium size vine and the fruit is long and slim carrying its size about the same its entire length. In color a fancy shade of dark green and keeps its color a long time, the flesh white, crisp and tender. Early and productive.

Pkt. 10c; oz. 25c; ¼ lb. 65c

TWO CHOICE RUTA BAGA SWEDE TURNIPS.—

We have imported these seeds from a noted English grower of turnips, and we urge all our customers to try at least one variety.

RUTA BAGA PERFECT MODEL.—A heavy cropping purple top Swede with small tops of fine flavor, and a long keeper. Matures early.

RUTA BAGA NE PLUS ULTRA.—A new English turnip, superior to our American varieties. Flesh richly colored, fine grained and sweet. Cooks quickly, free from strong odor.

Price each, 10c pkt.; 20c oz; ¼ lb. 50c; lb. \$1.50

SEE PAGE 13 FOR OTHER VARIETIES OF CORN

Copenhagen Market Cabbage

COPENHAGEN MARKET CABBAGE.—(See illustration.) A splendid extra-early round head cabbage from Denmark. The heads are grown upon a remarkably short stem, are solid and large in size, weighing 10 to 12 lbs., light green leaves, and of excellent quality. Pkt. 10c; oz. 45c; $\frac{1}{4}$ lb. \$1.10.

KING OF DENMARK SPINACH.—A remarkable new spinach that is far superior to all of the older kinds. Its principal advantage is that it stands two weeks longer before running to seed than any other variety. It also grows larger and yields more and is of superior quality.

The leaves are large, rounded, somewhat blistered and deep green. The plants grow vigorously and are ready to use as soon as any kind; while at the same time they remain a long time in good condition after other kinds have run to seed.

Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. 85c.

LEMON CUCUMBER.—The Garden Lemon.—The Lemon Cucumber resembles a lemon in shape, color and size, but grows on a vine like a cucumber. It has a thin skin, is crisp, tender, sweet and fine flavored. We are safe in predicting the Lemon Cucumber will become a great favorite for slicing, or pickles. The best time for pickling is just as it turns yellow. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

WHITE WONDER CUCUMBER.—Ivory white in color, thin skin, excellent quality and very hardy. Can be planted early. It is a sure cropper and very prolific. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

Davis Perfect is Among the Finest of Our Extra Fine Cucumbers. See Page 14.

Swiss Chard—Giant Lucullus

SWISS CHARD LUCULLUS.—The stalks are thick and broad. The leaves are large and heavily crumpled, crisp, tender and of fine flavor. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

LETTUCE, MAY KING.—A new early head lettuce, its growth is extremely rapid and its fine large heads are ready in advance of any other heading variety. Crisp and very brittle. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

LETTUCE, ICEBERG.—Very large, extremely crisp, hard-heading variety. The plants grow to a large size, sweet and mild in flavor. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. 75c.

BEEFSTEAK LETTUCE.—This grand new variety grows to an immense size, and makes large, loose heads of a rich and buttery flavor. The leaves are of a soft green, tinged and flaked with red, never grows bitter. A fine Summer variety. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. 75c.

NEW TOMATO—RED HEAD.—An exceptionally fine, large bright red variety, as early as Chalk's Jewel and nearly as large as Stone and as productive; fruits nearly globe shaped, very solid; vine of medium growth; an excellent canning variety. Pkt. 10c; $\frac{1}{2}$ oz. 35c; oz. 65c.

A WONDERFUL NEW TOMATO, JOHN BAER.—Earliest and best; brilliant deep red color; smoothest; no core; almost free from seed; delicious flavored; far more solid and meaty than any other; no culls; ripens even up to the stem; perfect beauties; uniform in size and ripening; a perfect shipper; blight proof. Pkt. 10c; $\frac{1}{2}$ oz. 30c; oz. 50c; $\frac{1}{4}$ lb. \$1.25.

MARGLOBE TOMATO.—Dr. Twitchell writes us as follows regarding the New Marglobe Tomato: "In long experiments with tomatoes I have been forced to discard many popular varieties for the reason I found something better."

"Thus the Red Head took the place of the Earliana and John Baer and now Marglobe has come in to take the place of all because earlier. It is of smooth shape, not overgrown, but comes in large clusters of medium size."

Pkt. 10c; $\frac{1}{2}$ oz. 40c; oz. 75c

JAPANESE ONIONS GROWN FROM SETS

Japanese Onions Grown From Our Sets

We call your attention to the photograph above of **Japanese Onions** grown from sets. This onion was originally called **Ebenezer**, was grown and introduced by the Market Gardeners of Ebenezer, N. Y.

These sets were grown by Dr. G. M. Twitchell at his experimental farm at Monmouth, Maine and weigh three-quarters of a pound each.

This onion will actually double the yield of any other onion set on the market. It throws very few seed stalks; is the best keeper and best flavored onion we have ever seen. Similar in size and shape to the Old Fashioned Yellow Danvers. **One Thousand Bushels Per Acre** is common. One customer last year actually reported ninety bushels of onions from one bushel of sets. Price per ½ pt. 15c; pt. 25c; qt. 40c.

JAPANESE OR EBENEZER ONION SEED.—See Page 17 for a description of this fine new onion.

Monmouth, Maine

Friend Kimball:

I want to thank you for sending me the **Japanese Onion Sets**. From two quarts I grew three bushels of very choice onions, many weighing three-quarters of a pound each and some fifteen ounces. The quality superior. The sets were planted April 26 and early in July I was selling bunches of four each, weighing one and one-half pounds. I want to thank you for introducing this very valuable variety of onion sets. Have just closed the twenty-seventh year with your seeds and have not met failure in any case yet.

Very truly,

G. M. TWITCHELL.

SIX GRAND NEW GARDEN PEAS

LAXTON'S PROGRESS.—One of the earliest and best type of the large podded dwarf peas. It bears long dark green pods, height 18 to 22 inches. A heavy cropper and quality the best. Pkt. 10c; ½ pt. 20c; pt. 35c; qt. 60c; ½ peck \$2.00; pk. \$3.25.

FAMOUS NEW PEA—PIONEER.—In this wonderful new pea we believe we have something that has long been sought after by the market gardener who wishes to second crop his ground. The plant is very robust in habit, makes a very heavy crop of large dark green pods. In our trial grounds last Summer it grew a vine about 18 inches high and they were so heavily podded on dwarf vines that it resembled almost a windrow of picked peas. Pkt. 10c; ½ pt. 20c; pt. 35c; qt. 60c; pk. \$3.25.

LAXTONIAN.—One of the most remarkable varieties yet introduced; very dwarf, 15 to 18 inches high, producing pods in great abundance; nearly as large as the Telephone. The peas are large with a flavor the very sweetest and best. Pkt. 10c; ½ pt. 20c; pt. 35c; qt. 60c; peck \$3.25.

ADMIRAL DEWEY.—A superb and productive variety of the Telephone type, but with pods and peas of a still deeper green color. Grows 4 feet tall, bearing dark green, pointed, slightly curved pods 4¼ inches long, containing 8 to 9 delicious, sweet green peas of high quality. Pkt. 10c; ½ pt. 15c; pt. 30c; qt. 50c; pk. \$3.00.

GRAND NEW PEA, MAY DAWN.—The largest and earliest of the wrinkled varieties of peas. It is an improved Gradus but earlier, more prolific, large pods, a great cropper. One of the best money-making peas that grow. Pkt. 15c; ½ pt. 20c; pt. 30c; qt. 50c; pk. \$3.00.

WORLD'S RECORD.—A popular large-podded, extra early, wrinkled pea which matures a little earlier than the well-known Gradus. Its growth is very similar to that of Gradus, but somewhat more dwarfed and stouter; pods uniformly large. Pkt. 10c; ½ pt. 20c; pt. 30c; qt. 50c; pk. \$3.00.

Varieties of Particular Merit

SPANISH GOLD SWEET CORN.—A new variety produced by the Connecticut Experiment station. It is probably the earliest yellow variety and has found much favor among market gardeners. It has a good sized ear, 8-10 rowed. The stalks are strong, about 5 ft. in height, producing one or more ears. Pkt. 15c; $\frac{1}{2}$ pt. 20c; pt. 35c; qt. 65c.

THE PRITCHARD OR SCARLET TOPPER TOMATO.—A disease resistant variety introduced in 1931 by Dr. F. J. Pritchard of the U. S. Dept. of Agriculture. It is a cross between Marglobe and Coopers Special and has inherited the good qualities of both. Fruits—large, smooth, globular, solid, with thick walls and small seed pockets. Color—bright scarlet. Very desirable for both home and the market gardener. Pkt. 15c; $\frac{1}{2}$ oz. 45c; oz. 80c.

SELECTED GOLDEN BANTAM CORN.—Maine grown. See Page 5 for description.

MILLPOND TURNIP.—Our supply of seed comes from Prince Edward Island where the Millpond is well known and considered one of the best in cultivation. Millpond is perfectly round and smooth; deep purple above ground. Its quality is excellent and it is also a splendid keeping variety. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.25.

LONGFELLOW CUCUMBER.—An excellent long, slender, dark green variety equally desirable for greenhouse forcing or out door culture. An ideal type for the private garden or as a "straight pack" variety for shipment to market. 12 to 14 inches long, by $2\frac{1}{2}$ inches in diameter. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

HUTCHINSON CARROT.—A carrot of great length and cylindrical shape almost to the point, grows with tops slightly out of ground, a very heavy yielder per acre. Small circle of green on top of root out of ground portion. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 75c.

The Seal of the State of Maine is located at the top center of the page. It features a shield with a moose standing in a forest. Above the shield is a crest with a star and a banner that reads "MAINE". The shield is flanked by two figures: a Native American on the left and a Revolutionary War soldier on the right. A banner at the bottom of the shield reads "MAINE".

SOME NEW VARIETIES OF SPECIAL MERIT

Cucumber— Early Fortune

The finest type of White Spine yet introduced. Early, very productive and disease-resistant. Color, rich dark green; flesh white, very firm and crisp with few seeds. It keeps its color a long time. A fine shipping sort, also fine for pickles.

Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

Golden Sunshine Corn

A Yellow Corn of the Golden Bantam type that will compete with the first early white sweet corns. An extra early yellow variety of high quality. Stalks growing $4\frac{1}{2}$ to 5 feet high often producing 2 or more fine ears, closely set with attractive yellow kernels of superb quality.

See page 5 for further description and price of this fine sweet corn.

Beet—Early Wonder

One of the earliest and most perfect shaped Beets. Its beautiful, deep blood-red, nearly globular-shaped root, small-sized top, and small clean tap root, make it desirable. Its attractive appearance, uniformity of size, shape and color, and excellent keeping qualities have created a splendid demand for this sort.

Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50

Mustard-Spinach (or Tendergreen)

A new vegetable green considered by many superior to spinach, mustard or turnip greens. Of Oriental origin. A very mild type of mustard with a creamy spinach flavor. Harvest when young, ready about 25 days after planting. Cook and prepare for table use same as spinach or turnip greens. Make several plantings through the season.

Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c.

Try this new vegetable and taste a new taste.

Mustard-Spinach (or Tendergreen)

Golden Acre Cabbage

A valuable new variety from Denmark, considered the most important recent Cabbage introduction. Eighty days from date of sowing. Heads measure 9 in. in diameter, entire plant occupies a space of 20 in. Ten days earlier than Copenhagen Market Cabbage. If you cater to the early market by all means try the Golden Acre.

Pkt. 10c; $\frac{1}{2}$ oz. 30c; oz. 50c.
